## MISSION STATEMENT

Continental Fuels, Inc. (OTCBB: <u>CFUL</u>) focuses on the domestic and international distribution of petroleum products. Its core business encompasses purchasing, selling, storing, blending and transporting these products, both domestically and internationally. Continental has been divided into three divisions – Terminal Operations, Marketing and Transportation.

In April 2007, Continental acquired US Petroleum Depot, Inc. and UPDA Texas Trading, Inc. (renamed Continental Trading Enterprizes, Inc.). Through US Petroleum Depot, Inc., Continental gained control of a petroleum storage and terminal facility in the Port of Brownsville, Texas and Continental Trading has established supply contracts and sales agreements with several major refineries for the purchase and sale of North American light crude condensate.

The Brownsville terminal facility is currently receiving condensate that will be used in the blending of gasoline or sold into the US market. The terminal includes truck and rail on and off loading terminals and is able to handle barges and tankers up to the Suez-max size. Continental Fuels is actively pursuing additional terminal and storage facilities throughout the U.S. and its expansion plan also includes the acquisition of pipelines in order to develop a logistical edge in product distribution.

Continental Fuels is presently receiving approximately 6,000 barrels of condensate per day.
